EDUCATION

University of Glasgow, U.K. 2024 - 2025

Master of Science, Data Analytics for Economics and Finance

- GPA: 18.42/22
- Master dissertation: Variational Inference for Hybrid Deep Learning Models in Stock Price Forecasting supervised by Dr. Santiago Montoya-Blandón.
- Relevant Modules: Bayesian Data Analysis, Econometrics 2, Deep Learning, Applied Time Series, Statistical Machine Learning, Microeconometrics, Text Analytics.

National Economics University, Vietnam 2020 - 2024

Bachelor of Science, Finance

- GPA: 3.8/4.0 or 8.84/10 (First-class honour)
- Bachelor dissertation: The Role of Personal Financial Leverage in Real Estate Transactions in Vietnam supervised by Dr. Anh The Khuc.
- Relevant Modules: Econometrics, Statistics, Calculus, Microeconomics, Macroeconomics, International Economics, Business Finance, International Finance, Investment Principles, Portfolio Analysis, Fixed Income Securities, Derivatives.

SHORT COURSES

Modern Statistics with R, Vietnam Institute for Advanced Studies in Mathematics Dec 2023

Fully-funded by Vietnam Institute for Advanced Study in Mathematics

Research and learning experience program, Vietnam Summer School of Sciences Aug 2023

Fully-funded by Vingroup Innovation Fund and Vietnam Institute for Advanced Study in Mathematics

RESEARCH EXPERIENCE

Research Assistant, National Economics University, Vietnam Jun 2022 -

Supervised by Dr. Anh The Khuc

- Collect and analyse primary data on digital financial services, borrower behaviour, and crowdfunding for behaviour analysis projects.
- Process and interpret secondary data from development banks.
- Prepare materials and write literature review for publications.

PROJECTS

Multilateral Development Banks profitability Jan 2025 -

National Economics University

- Preprocess annual financial data from 17 multilateral development banks worldwide from 2016 to 2024, including structuring wide-format data into panel data, merging datasets, and imputing missing values.
- Estimate baseline relationships using Pooled OLS, then control for unobserved heterogeneity with Fixed Effects and Random Effects models.
- Correct endogeneity via Two-Stage Least Squares and Two-Stage Correlated Random Effects.
- Conduct statistical analysis and prepare reports using R.

Bayesian Lasso & Group Lasso implementation Mar 2025
University of Glasgow
- Design and implement Gibbs samplers from first principles for the Bayesian Lasso and Group Lasso.
- Build a Monte Carlo simulation framework to replicate published experiments: generated correlated covariates (trichotomized and interaction terms) and executed multiple replications to evaluate estimator behaviour.
- Compute posterior modes and Monte Carlo mean squared errors for each parameter estimate, systematically comparing shrinkage profiles and variable-selection accuracy between methods.
- Conduct the analysis using MATLAB.

Stock market prediction Mar 2025
University of Glasgow
- Preprocess a dataset containing daily percentage price movements of 442 companies from 05/04/2010 to 31/03/2022, specifically performing data normalisation and constructing a data loader.
- Develop a model for forecasting next-day closing returns (01/04/2022) and evaluate its performance using Mean Squared Error (MSE).
- Design a Long Short-Term Memory neural network architecture, performing hyperparameter tuning to optimise model performance and achieve the lowest possible MSE.
- Implement model training and evaluation in Python using PyTorch.

PUBLICATIONS

Anh The Khuc, Phuong Thi Hoai Nguyen, **Manh Cuong Nguyen**, Ha Thu Le, *"Perceived risks of financial misconduct and fintech in crowdfunding of Vietnamese individual investors"*, Emerging Markets Review (2024).

Khuc The Anh, **Nguyen Manh Cuong**, Nguyen Ha Anh, Vu Hoang Anh, Nguyen Quoc Tien, *"Access to credit for real estate transactions in emerging markets - Empirical evidence from Vietnam"*, Journal of International Economics and Management (2024).

ACADEMIC ACHIEVEMENTS

Adam Smith Skills Award, University of Glasgow — Jun 2025

Top 5 in Capco case study competition - Finance consulting, Scottish Universities — Nov 2024

Award for Graduating with **Excellent** Academic Results, National Economics University — Sep 2024

Scholarship for **Outstanding** High-Class Rankings, National Economics University — 2022 - 2024

Second prize (2024, 2023) and **Third prize** (2022) in Scientific Research competition, National Economics University — 2022 - 2024

5-Merit Student Award, National Economics University — 2022 - 2024

SKILLS

Programming Python, R, MATLAB, LaTeX, Stata, EViews.
Languages Vietnamese (native), English (fluent)
